About Me

I, Umar Talibov, as a junior Frontend developer, have experience in creating user-friendly modern web applications. Proficient in basic web technologies such as HTML, CSS and JavaScript, I can work well in a team environment. My goal is to contribute to your company's web development goals while growing and developing in the technology industry. About me My [github](#) profile for more information

Work Experience

Frontend Developer

[Audiophile](#)

I created this site using react . for the convenience of the user. when moving from the first window to the second . I prevented the window update . this will help you use the site faster . I have eliminated this problem using react-router-dom library

Front-end developer

[Nur Invest](#)

in this project I focused more on tailwind css. and all styles on the site are created using tailwind CSS

Front-end developer

[Weather App](#)

I used HTML, CSS, JS to create this site. I used api to get the data. I also provided the data from the api to the users

Skills

- Html 5
