About Me

I'm Front-End developer. It's been one year since I entered the field of programming

I am interested in learning new things and want to work with a bigger team.

I was a barber before I got into programming

Education

1) I study in the **11th grade at school 41** in Samarkand.

2) Programming : I graduated from "**Samarkand Yoshlar Texno Park**".

Work Experience

React Developer

Audiophile

- I learned how to make Responsive in React.
- I learned how to use React with Vite.
- I learned how to work with React Router Dom.

Front-end developer

CRM demo

- Html, tailwind CSS, chart.js and javascript for this project I worked with.
- I tried tailwind css in Light Mode Dark Mode.
- I worked with chart.js library in this project.

Skills

programming languages:
